Playmate P5

Musicpower : 5 Watt.
 Controls : gain, tone, volume.
 Inputs : 1
 Outputs : line + headphone.
 Dimensions : 22 x 36.4 x 18 cm.(h x w x d)
 Weight : approx. 4.9 kg

Playmate P10

Musicpower : 10 Watt.
 Controls : gain, treble, bass, volume.
 Inputs : 1
 Outputs : line - headphone.
 Dimensions : 36.4 x 36.4 x 18 cm.(h x w x d)
 Weight : approx. 6.7 kg

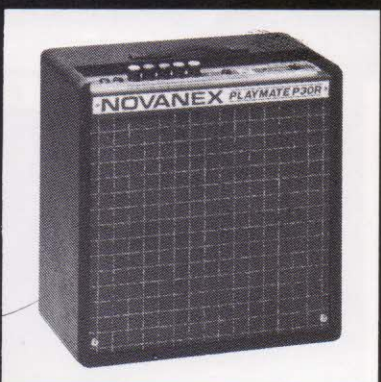

Playmate P20

Musicpower : 20 Watt.
 Controls : gain, treble, middle, bass, volume.
 Inputs : 1
 Outputs : line + headphone.
 Dimensions : 40 x 40 x 20 cm.(h x w x d)
 Weight : approx. 8.2 kg.

Playmate P30

Musicpower : 30 Watt.
 Controls : gain, treble, middle, bass, volume.
 Inputs : 1
 Outputs : line + headphone.
 Dimensions : 44.4 x 44.4 x 20 cm.(h x w x d)
 Weight : approx. 10.9 kg.

Playmate P30R

Musicpower : 30 Watt.
 Controls : gain, treble, bass, reverb, volume.
 Inputs : 1
 Outputs : line + headphone.
 Dimensions : 44.4 x 44.4 x 20 cm.(h x w x d)
 Weight : approx. 11kg.

PLAYMATE

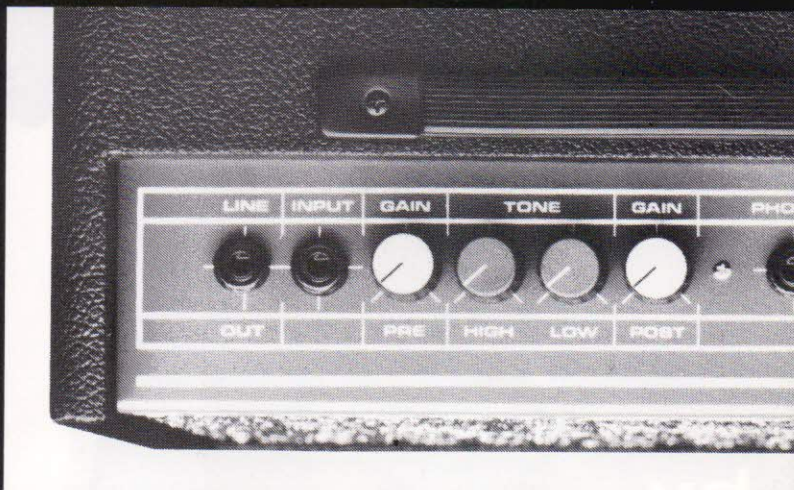

Modern guitar players are not satisfied anymore with a guitar amplifier which does not produce the complete range of sounds, typical for today's music.

Therefore NOVANEX developed this new range of compact guitar and bass amplifiers, incorporating the necessary means to realize these sounds: an overdrive/distortion and limiter/compressor to avoid the need for separate equipment with the risk of matching problems, and this on studio-quality level!

The result is a range of five amps in four different power-levels with an increasing number of tone-controls at higher power.

A headphone-connection offers the possibility to practise at home without disturbing others.

Playing the guitar with these amps is a pleasure, being free from all technical problems, concentrating only on the music.

* all amplifiers have built-in overdrive/distortion and limiter/compressor
 mains 220v-50hz. other voltages on request. subject to alterations without notice
